

Experimental Training Board has been designed specifically to the study of L-C Transmission Line (48 sections).

Practical experience on this board carries great educative value for Science and Engineering Students.

Object:

01. To study Propagation along L-C ladder network having 48 sections and find out the propagation constant.

Features:

The board consists of the following built-in parts :

01. 48 Inductances.
 02. 48 Capacitances.
 03. Mains ON/OFF switch, Fuse and Jewel light.
- * The unit is operative on $230V \pm 10\%$ at 50Hz A.C. Mains.
 - * Good Quality, reliable terminal/sockets are provided at appropriate places on panel for connections.
 - * Strongly supported by detailed Operating Instructions, giving details of Object, Theory, Design procedures, Report Suggestions and Book References.

Other Apparatus Required:

- * Digital Multimeter $3\frac{3}{4}$ digit

Note: Specifications are subject to change.
