03. ENGAGING LEARNING EXPERIENCES

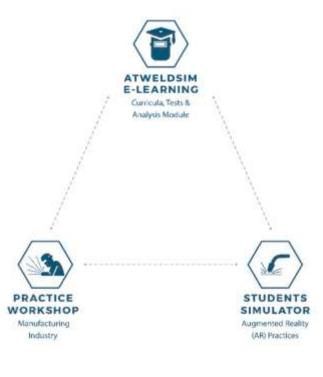

AUGMENTED LAB

SIMULATED LAB + REAL LAB

AUGMENTED TRAINING METHODOLOGY

First weld it in Augmented, then in real, using quality contents and managing your students in a personalized way.

O4. MORE REALISTIC EXPERIENCE POWERED BY AUGMENTED REALITY

T-SIMWELD

AUGMENTED REALITY

Simulates only what needs to be simulated, leaving physical parts in their real state. With this, we provide realism to the student without eliminating sensory perception, which is important for training potentially dangerous skills in risky environments.

Is an enhanced, real-world experience

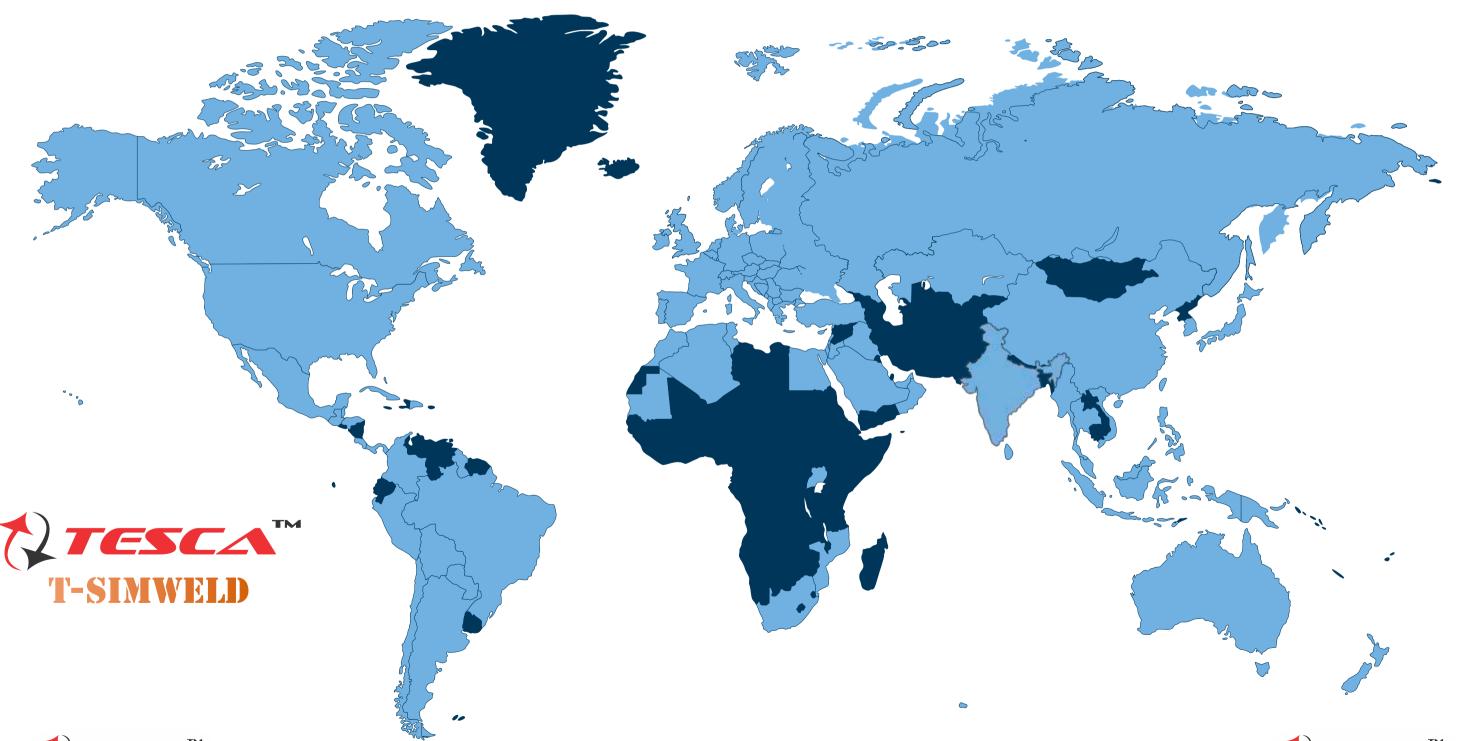

O5. DEVELOPED BY SEABERY, THE WORLDWIDE #1 MANUFACTURER OF AR WELDING TRAINING SOLUTIONS

Governments, educational institutions, universities and large industrial corporations are using Seabery solutions.
