

Specification :-

- 750W direct saver motor, compared with the clutch motor, more accurate to control mechanical structure. Also it is power saving and high efficiency machine.
- Cylindrical design makes out more beautiful stitch and reduces the wrinkled of fabric. Widely used in Shirt, uniform, jeans, from light duty to heavy duty product.
- Realization of the rear puller lubricated makes the rear puller lubricate continuously, which extends the life of rear puller a lot.
- The needle position is always in upside. Convenient to sewing, needle exchanging and thread making.
- Removable need guard, to prevent the skipping stitch, to make the high quality with high efficiency.
- The button can adjust the stitch length easily to satisfy many different requirements.
- Easy to thread making, needle changing and relieve visual fatigue.
- PL puller device is built-in direct drive puller whose structure is very simple; PS puller is outside which makes the cloth feeding size wider and adjustment convenient.

Features :-

- No.of needles : 2,3
- No.of threads : 4,6
- Stitch Width : 3.5
- Presser foot lifter : Manual 8mm
- SPM : 4000
- Needle gauge : 1/4 - 3/16
- No. of loopers : 2,3
- Box size (mm) : 580x530x470
- N weight / G weight : 40 / 55
