

**Specifications :**

- A PCB (Printed Circuit Board) holder or PCB.
- PCB Holder stand: is used to hold the PCB of a mobile phone while soldering or repairing. It holds the PCB very strongly and doesn't allow it to move thus helping in repairing. Again, it is important and wise to select a good quality PCB holder rather than a cheaper and inexpensive one.

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
