

Technical Specification:-

- This trainer is designed to improve students' skills on refrigeration system and air conditioning pipe design and installation, electrical wiring, working condition debug, refrigeration tools application and etc.
- It constitutes with air conditioning system and refrigeration system.
- Electrical system and pipe system are divided independently.
- The electrical control system constitutes with power supply module with leakage protection, heat-cooling pump air condition electrical control module, digital temperature control refrigeration electrical control module and intelligent temperature control type refrigeration electrical control module.
- The pipe system includes heat pump air conditioning and refrigeration.
- Made of aluminum material, the device is equipped with 2 liquid lens, 4 sets high/low pressure meters.
- It is installed with 4 universal wheels, which make it easy to move.
- Dimension: 4'x3'x5' (ft)

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
