

Features

- Actual Griswold ANSI Centrifugal pump.
- Shaft rotation via a hand wheel.
- Aluminium replacement gland.

Tesca Pump Maintenance Trainer is designed as a bench-top device for training in the disassembly, packing, and reassembly of common centrifugal pumps. The trainer uses an ANSI pump and including many actual pump components, the training aid also allows for realistic, in-depth instruction in the installation and maintenance of mechanical seals. A clear acrylic back-head provides total visibility of the seal area.

Detailed Operation & Maintenance Manual is provided along with the trainer.

Technical Specifications:

- A bench-top device for training in the disassembly, packing, and reassembly of common centrifugal pumps.
- Incorporating a standard ANSI pump and including many actual pump components

Experiment possibilities:

1. Disassembly, packing, and reassembly of common centrifugal pumps.
2. Pump maintenance procedures, including impeller clearance adjustment.

Note: Specifications are subject to change.
