

Tesca Sectioned Steam Pressure Relief Valve 32450 is a cutaway model of an industrial standard steam. This real steam pressure relief valve is carefully sectioned in all its detail. All parts of the injection pump is well sectioned to show its important components. The sections highlights all the parts which are important in explaining the operation of the equipment. The function of the moveable parts is preserved. The entire training model is supplied on demonstration panel.

Experiments

1. Study on the working principles of steam pressure relief valve.
2. Familiarisation with the construction parts of steam pressure relief valve.
3. Familiarisation with the function of steam pressure relief valve.
4. Familiarisation with the function of each of the major components of steam pressure relief valve.

Scope of delivery

1. 1 training module, complete
2. 1 set of manual and documentation which includes:
 - Student manual
 - Technical manual
 - Teaching manual

Note: Specifications are subject to change.
