

Order code	Specification	Overall Dimensions
MT451	Bulk Density Cylindrical Metal Measure 3 LTR.	225 X 170 X 180(L X W X D) mm
MT452	Bulk Density Cylindrical Metal Measure 5 LTR.	210 X 210 X 290(L X W X D) mm
MT453	Bulk Density Cylindrical Metal Measure 10 LTR.	11 x 13 x 12 in Inches (L x W x H)
MT454	Bulk Density Cylindrical Metal Measure 15 LTR.	11 x 13 x 12 in Inches (L x W x H)
MT455	Bulk Density Cylindrical Metal Measure 20 LTR.	11 x 13 x 12 in Inches (L x W x H)
MT456	Bulk Density Cylindrical Metal Measure 30 LTR.	15 x 18 x 13 in Inches (L x W x H)

Applications:

For measurement of "Unit weights" and voids in aggregate.

Apparatus Details:

- Made from thick gauge Mild steel
- Stout and rigid to retain form
- Water tight from top and bottom
- Smooth Interior wall
- Precision machined for true measurements
- Complete with handles for easy carriage
- Supplied without tamping rod of 16mm diameter x 600 mm long.

Note: Specifications are subject to change.
