

Operation

- Manually operated through a crank handle

Equipment Layout

- Mounted on a stand with wheels for mobility

Dimensions and Weight

- **Dimensions:** 60 cm (W) x 70 cm (D) x 65 cm (H)
- **Net Weight:** 100 kg

Functional Components

- **Motor Generator 1 (MG1):**
 - Acts as the control element for the power-splitting planetary gear set
 - Recharges the high-voltage (HV) battery
 - Supplies electrical power to Motor Generator 2 (MG2)
 - Controls the continuously variable transmission function of the transaxle
 - Serves as the engine starter

Design Features

- Sectioned model displays internal components clearly for educational purposes
- Various parts treated with chromium plating and galvanization for enhanced durability and longevity
