

### Description:-

This instrument is special used in grinding groundnut and sesame, then to make sauce for hot pot or something else, high efficiency, operation quietly, long sustain of wheels. It can be used both in home and restaurant, is really an ideal machine for groundnut and sesame processing. Using high quality stainless steel, will not be rust, clean and sanitation. with respect to the pressure homogenizer, colloid mill is the first of a centrifugal equipment, its advantage is simple structure, equipment maintenance and maintenance is convenient for high viscosity materials and larger particles of material.

Peanut butter colloid mill machine is a new equipment by introducing the latest technologies of wet-type particle processing method.

Peanut butter colloid mill making machine is designed to make peanut butter, sesame paste, etc with various tastes. Compacted Structure, stable working, low noise, rust-proof, easy to clear and maintain.

### Specification:-

- Dimensions - 71.12 x 33.02 x 33.02 cm
- Capacity - 15 Kilograms
- Power / Wattage - 1100 watts
- Material - Stainless Steel
- Item Weight - 22.7 kg

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
