

CABINET

*Cabinet
(image for reference only, actual product may differ)*

SYSTEM OVERVIEW

The **Cabinet** is designed to provide secure and organized storage within smart-factory laboratories and training environments. It is constructed with durable materials to ensure stability, strength, and long service life. The cabinet design supports equipment storage, document management, and accessory organization while maintaining a clean and professional appearance.

The structure incorporates leveling mechanisms for installation on uneven floors and includes a secure locking system to prevent unauthorized access. The recessed handle design ensures smooth operation without obstructing surrounding movement, contributing to both safety and aesthetics.
