

### Product Overview

The Water Distillation Apparatus is designed for reliable and fully automatic production of high-quality distilled water for laboratory and educational applications. Constructed using borosilicate glass, the apparatus provides distilled water free of pyrogen and metal ions.

### Technical Specifications

Parameter	Details
<b>Product Name</b>	Water Distillation Apparatus
<b>Operation</b>	Fully automatic operation
<b>Construction Material</b>	Borosilicate glass
<b>Water Quality</b>	Free of pyrogen and metal ions
<b>Distilled Water Production</b>	4 L/h
<b>pH Range</b>	5.5 – 7
<b>Water Consumption</b>	2 l/min
<b>Power Supply</b>	1 Phase AC 230V, 50/60 Hz

### Features

- Fully automatic operation for convenient use
- Borosilicate glass construction for durability and chemical resistance
- Produces distilled water free from pyrogen and metal ions
- Stable distilled water output of 4 liters per hour
- Suitable pH range for laboratory applications
- Efficient water consumption system
- Operates on standard 1 Phase AC power supply
- Suitable for laboratory, educational, and research applications
