

(Photos are indicative only)

### Features

- Educational kits designed for **prototyping electronic circuits without soldering**, enabling safe and repeatable experiments in STEM education
- Supports hands-on learning of **electronic components, circuitry principles, and logical circuit construction**

### Technical Specifications

Parameter	Offered Specification
<b>Intended Use</b>	Educational electronic prototyping and circuit learning
<b>Kit Configuration</b>	Basic configuration
<b>Prototype Boards</b>	Solderless breadboards provided
<b>Connecting Wires</b>	Flexible jumper wires of various lengths
<b>Wire Terminations</b>	Female, male, and female-male connectors
<b>Reusability</b>	Designed for repeated connection and disconnection without loss of contact
<b>Component Compatibility</b>	Compatible with common electronic components such as resistors, LEDs, transistors, ICs, microcontrollers, and similar devices
<b>Wire Insulation</b>	Insulated wires for safe operation
<b>Board Material</b>	Heat-resistant plastic base

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
