

**Product Description**

Portable hydraulic system testing equipment designed for pressure testing, calibration, and performance evaluation of hydraulic components and systems in laboratories, maintenance facilities, and industrial applications.

**Technical Specifications**

Parameter	Specification
Maximum Outlet Pressure	686 Bar
Maximum Flow Rate	3.9 L/min
Weight (Complete Set)	35-50 kg
Valves & Piping	High-Pressure Needle Valve with Stainless Steel Piping
Outlet Pressure Control	Direct Air Regulator Valve

**Features**

- High-pressure testing up to **686 bar**
- Precision flow control
- Stainless steel high-pressure piping
- Direct air regulator for accurate pressure adjustment
- Compact and portable design
- Suitable for hydraulic system testing, calibration, and maintenance applications

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
