

**Specifications -**

- 1-Experiments relating to key issues in pump engineering;
- 2-comparison of various pump types: centrifugal pump, piston pump, sidechannel pump;
- 3-operation of centrifugal pumps in parallel or series configuration;
- 4-free position for additional pump
- 5- three-phase AC motors for centrifugal pumps and additional motor with variable speed by frequency converter
- 6-plant control with PLC, operation via touch screen
- 7-integrated router for operation and control via an end device and for screen mirroring: possible to mirror the user interface on up to 10 end devices data acquisition via PLC on internal USB memory, access to stored measured values via WLAN with 8-integrated router/ LAN connection to customer's own network

*Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.*
