

SPECIFICATIONS:-

- Bench mounted accessory that allows experimental investigation of both natural and forced convection from a heated cylinder in a cross-flow configuration. The surface temperature of a duct-mounted, matt black cylinder may be varied over a wide range; thereby allowing the increasing effects of radiant heat transfer to be investigated as the temperature is increased.
- Matt black cylinder: Ø10mm black plate (Near 1.0 emissivity)
- Heater input power: 100W @ 240Vac
- Recommended cylinder operating temperature: 500°C
- Air velocity: 0...8 m/s

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
