

**Specifications -**

The Hydraulic Shop Press 30 Ton is a high-performance tool for any professional shop. In addition to its compact and portable design, this heavy duty hydraulic press machine provides up to 30 tons of pressure, making it ideal for bending, stitching, straightening, and shaping various surfaces. Its unique features include a servo motor with a closed circuit pump, a built-in pressure switch, and an automatic pressure release valve, which increase any user's safe operating range while allowing them to perform their work more efficiently.

The hydraulic press is designed for heavy-duty applications. It works on a manual operation, including an easy pump and a handle. Its anti-vibration design enables users to work comfortably, while its hydraulics-based action makes the process easier. This press is made of cast iron, which ensures durability and quality. It has a capacity of 30 tons, which is suitable for heavy-duty jobs, such as bending and bonding or straightening industrial materials. The machine is also light in weight, weighing around 107 kilograms.

Features -

- Stroke (mm): 15mm
- Operation Type: Manual
- Working Base: 750 mm
- Material: Mild Steel (MS)
- Application: Bending & Bonding or Straightening
- Height (Inch): 81 Inch
- Frame: H – Frame
- Phase: Single
- Type of Product: Hydraulic Press
- Capacity: 30 Ton
- Color: Red Stroke
- Height: 225mm
