

Specifications -

Hydraulic Trolley Jack is designed to provide the correct jack for many applications. This 3-ton trolley jack comes with a body that is fully welded using heavy-duty laser-cut steel and jacking arms, which are manufactured using a high tensile steel plate connected by heavy-duty components that ensure long working life and durability. The jack has been designed with high-quality materials and advanced technology and engineered to meet all industry standards.

This hydraulic trolley jack is ideal for recreational use or for cars and other vehicles requiring occasional lifts. It boasts a capacity of 3 tonnes, making it suitable for small family cars, vans and trucks. This hydraulic trolley is built to withstand the demands of today's automotive repair professionals. The rust-free, high-quality extruded base features robust construction and a rugged design that provides years of heavy-duty use in a demanding automotive environment. Its compact design helps in making it easy to fit on a vehicle and get the job done safely. The unit comes with an integrated handle for easy carrying and an adjustable locking valve, which regulates the pressure of a fluid within it and ensures safety when working on your vehicle.

Features -

- Type of Product: Hydraulic Trolley Jack
- Capacity: 3 Ton
- Material: Iron
- Application: Automobile Garages and Work Station
- Cars & Trucks and Industries
- Minimum Height: 135 mm
- Maximum Height: 400 mm
