

General Description

The Wiring Plate Assembly is designed for training, certification, and intermediate-level automation projects. It provides a complete, modular wiring solution equipped with protective devices, motor control components, and programmable logic control integration.

This assembly is delivered unwired for training purposes, enabling hands-on learning in electrical installation, wiring, and PLC integration.

Composition

- **Power Supply & Distribution**
 - 1 wiring board
 - 1 power input terminal block
 - 1 × 24 V AC transformer
 - 1 × 24 V DC power supply
 - 1 four-pole busbar
 - 1 set of protective circuit breakers
- **Switching & Protection**
 - 1 disconnector
 - 1 switch-disconnector
 - 1 thermal-magnetic circuit breaker

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.

Export Sales: +91-9829132777
India Sales: +91-9588842361

• Control Components

- 1 contactor
- 1 reversing contactor
- 1 TeSys U motor starter with Modbus port or alternative solutions
- 1 M221 PLC or alternative solution

• Measurement & Interface

- 1 measuring unit with 3 CTs
- 2 control boxes with pushbuttons and indicator lights
- 1 connection terminal block for limit switches and contacts
- 5 limit switches

Additional Inclusions

- **Conveyors** (with M221 PLC, control panel, and limit switches) or alternative solutions
-

Key Benefits

- Modular training system for certification and practical exercises
- Complete PLC-based automation platform with safety components
- Expandable and configurable to suit various industrial scenarios

P.S – We will customize this as per the specification mentioned in the sheet so we dont have images of exact product..Product looks may vary at the time of making.Above picture is AI generated as per the specifications.
