Educational Brake Drum Model

Tesca's Educational Brake Drum Model offers a hands-on learning experience for understanding drum brake mechanisms. Designed with precision, it features a clear cross-sectional view, labeled components, and manual operation to demonstrate real-time functionality — ideal for classrooms and training labs.

Key Features

- ✔ **Cross-Sectional Design:** Exposes internal structure for visual clarity
- ✔ **Manual Operation:** Rotate and engage components manually for demonstrations
- ✔ **Durable Construction:** Made from high-quality aluminum and steel
- ✔ **Fully Labeled Parts:** Includes brake shoes, springs, levers, and drum for easy identification
- ✔ **Comprehensive Training Support:** Comes with printed manual & digital learning materials

Technical Specifications

Parameter	Specification
Model Type	Brake Drum Cutaway Model
Operation	Manual (Hand Rotation)
Material	Aluminum & Steel Construction
Components Shown	Brake drum, brake shoes, return springs, lever, anchor pin
View Type	Cross-sectional with mounted base
Educational Aids	User Manual + Digital Training Content
Ideal For	Mechanical Engineering Labs, Automotive Training Institutes

Note: Specifications are subject to change.
