

## 20 kg Ice Maker

A compact, standalone ice maker designed to produce up to 20 kg of ice per day. Ideal for small commercial setups, cafeterias, laboratories, and refrigeration training programs. This unit demonstrates the ice-making process, refrigeration cycle, and automatic harvesting system.

### Technical Specifications

- **Ice Production Capacity:** Up to 20 kg/day
- **Ice Type:** Bullet-shaped or cube-shaped (based on model)
- **Storage Bin Capacity:** 5 to 10 kg (approx.)
- **Cooling System:**
  - Air-cooled or water-cooled condenser
  - Closed-loop refrigeration system
- **Refrigerant:** R134a or R600a (model dependent)
- **Compressor:** Hermetically sealed, fractional HP
- **Ice Harvesting:** Automatic cycle with thermal or timer control
- **Water Supply:** Continuous inlet or manual fill (model specific)
- **Defrost System:** Hot gas or time-controlled
