

Order Code :20213501.3.6

Name : PH Meter

Specifications:

A **pH Meter** is a scientific instrument that measures the hydrogen-ion activity in water-based solutions, indicating its acidity or alkalinity expressed as $\text{pH}^{(2)}$. The pH meter measures the difference in electrical potential between a pH electrode and a reference electrode, and so the pH meter is sometimes referred to as a "potentiometric pH meter".

The difference in electrical potential relates to the acidity or pH of the solution.

Electrode Stand (Rotational)

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
