

Specifications -

2.2 Ton Heavy-Duty Transmission Jack is a premium transmission jack designed to handle most any heavy duty transmission. This jack is designed for installing and servicing transmissions up to 2.2 tons or 4,400 lbs. This jack is equipped with 4 swiveling caster wheels to make it easier to roll across concrete garage floors when removing or installing the transmission. With a 10 in. minimum height, this jack is perfect for any vehicle with low ground clearance. Made to conform to ANSI Standards. Head width is adjustable from 12-18 in. and head length adjustable from 16-20 in. Left and right tilt 12 degrees. Forward tilt up to 15 degrees and rear tilt up to 30 degrees.

Features -

- Wide chassis design provides maximum stability
- Safety overload system
- Fully adjustable universal saddle, brackets and chain sling
- 360° rotatable pump handle for operation in any position
- Easy access to relief valve to lower the jack
- Sealed hydraulic unit keeps piston and cylinder clean and free of debris
- Lifting capacity 2. 2 ton or 4400 lbs.
- Forward tilt 10 degrees, rear tilt 10 degrees
- Head width 12 in. x 18 in.
- Head length 16 in. x 20 in.
