

**Specifications -**

HYDRAULIC PRESS 20 Ton with Base is a compact and versatile hydraulic press featuring an adjustable safety interlock that prevents any operation when the handle is in any position other than the down position. The convenient adjustable handle provides easy use for both right and left-handed operators, while the auto pressure release valve features an extra long throw handle for quick and reliable resetting. The Hydraulic press machine is an easy-to-use and durable press to help you lift, shape and form. It is engineered with high-quality cast iron components, including steel bearings and a double-acting piston. The Hydraulic Shop Press is the perfect tool for any of your shop needs. This HYDRAULIC PRESS features a 20-ton capacity, making it ideal for large-scale repair, assembly and manufacturing projects. It is constructed from heavy-duty steel and includes an inner cylinder, dies block and ramrod. The strong frame of this machinery is built to withstand heavy use, while the easy-to-use foot pedal control makes it easy to operate.

Features -

- Stroke (mm): 15mm
- Operation Type: Manual
- Working Base: 750mm
- Material: Mild Steel (MS)
- Application: Bending & Bonding or Straightening
- Height (Inch): 81 Inch
- Frame: H – Frame
- Phase: Single
- Type of Product: Hydraulic PressAutomation
- Type: Manual
- Capacity: 20 Ton
- Color: RedStroke
- Height: 225mm
