

**Specifications:**

- 230 mm (9") 2,200 W Angle Grinder, Large Trigger Switch
- This model, targeting metal grinding operations, has achieved similar durability as GA9020, while improving cost competitiveness and realizing a lightweight and compact design
- Cost-competitiveness / Compact and lightweight
- This model is a lightweight and compact 2,200W angle grinder with an N94 motor and has achieved weight reduction in the gear housing, etc.
- Excellent maneuverability
- The side grip can be attached closer to the center of the wheel rotation to reduce the load on the user's hand for improved maneuverability in grinding operation
- Reduced core abrasion
- (Stator) core abrasion is reduced by adding a water absorption process to the nylon motor housing after molding to reduce dimensional changes of the housing in humid conditions
- Improved leakage resistance
- Switch cover and Sponge are added to improve leakage current resistance between switch terminals
- Serial number label protection
- The serial number label is placed in a position hidden by the wheel cover to protect the label
- Three-position adjustable side grip for operator convenience
- Double insulation
