Hydraulic Sheet Metal Bending Machine

Tesca's Hydraulic Sheet Metal Bending Machine is designed for precision bending in industrial fabrication and technical education environments. Built to meet **ISO 12100 safety standards**, it includes essential accessories and a digital simulation software suite—making it ideal for both hands-on practice and theoretical training.

Key Features

- ✔ **Safety Compliant:** Fully conforms to ISO 12100 machinery safety standards
- ✔ **Complete Accessories Kit:** Includes calipers, bending templates, and lubricants
- ✔ **Digital Simulation Software:** Enables pre-bending simulation and angle prediction
- ✔ **Heavy-Duty Performance:** Built for consistent hydraulic pressure and long-term use
- ✔ **Maintenance Tools Included:** Ensures continued operational efficiency

Technical Specifications

Parameter	Specification
Machine Type	Hydraulic Sheet Metal Bending Machine
Operation	Manual or Semi-Automatic Hydraulic Actuation
Safety Standard	ISO 12100 Compliant
Bending Capacity	Up to 3 mm Mild Steel (customizable options)
Accessories	Calipers, Bending Templates, Lubricants
Software	Digital Bending Simulation & Angle Calibration Tool
Maintenance Kit	Oil Can, Grease Gun, Wrenches, User Manual
Construction	Heavy-Duty Steel Frame with Powder Coating

Note: Specifications are subject to change.
