

Order Code : 20213525.1.9

Name : Immobilizer ignition control

Specifications:

Technical parameter

1.Dimension:140x130x170cm

2.Operating voltage:12 DC

3.External power supply:A.C. 220V +/- 10%
50Hz

Product description

The system describes the working principle of the anti-theft ignition simulator, the fault setting and troubleshooting. By using this equipment, students can deeply understand and master the components, working principle, fault diagnosis and troubleshooting of the anti-theft ignition simulator.

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
