

**Description:**

This is an agile tracked chassis, low noise and easy to control, high strength aluminum alloy which makes it extremely solid and durable.

large tracked, simple installation, self-contained electronic module mounting hole.

Made of engineering PVC that assured the good elasticity, excellent damping effect and large road grip of the product.

The tracked chassis is unassembled, you need to get it done by yourself and enjoy the fun of DIY.

Material: Metal and Wooden

Specification:

- Weight: 405 g
- Double layer size: 203x155x98mm/7.99x6.10x3.86inch.
- Voltage: 3-9v
- Motor reduction ratio: 48:1
- Motor line length: 15cm
- Track width: 4.5cm
- Track material: hard PVC

Package Includes:

1 Set Tank Chassis Kits

Note:

- Due to the light and screen setting difference, the item's color may be slightly different from the pictures.
