

Description

PLASMA STORAGE FREEZERS Our high-performance -35°C freezers provide long-term storage for specialty plasma products, delivering protection against interior warm-up that can result from heavy freezer use. Our -40°C plasma freezers maintain safe, uniform storage conditions even at ambient temperatures of up to +45°C.

1. -35°C and -40°C units with storage capacities from 80 liter to 600 liter
2. Microprocessor based Digital display Independent bottom temperature control with audio visual alarm for high and low temperature. And power failure alarm.
3. CFC free refrigeration system.
4. Start up delay protection.
5. High intensity insulation foam.
6. Lockable caster easy to move.
7. It has washable filter.
8. Positive latch with key lock security; prevents door 'pop-open' on two-door units.
9. Anti-sweat door frame heaters with magnetic compression gaskets to provide a tight door seal.
10. dual door for zero cooling loss.
