

### Overview

Flake Ice Maker is made up of durable, high-quality stainless steel that resists corrosion. It has an ice making capacity of 85 Kg/24h and 25 kg of ice storage. It is designed with adjustable feet and slide away access door for easy user access. Equipped with a compressor of renowned brand with a high efficiency CFC free R134a as a refrigerant. It offers air cooled type condenser and fully automatic controller. It produces flakes of ice from tap water

### TECHNICAL SPECIFICATION:-

- Ice Making Capacity: 85Kg/24h
- Ice Storage: 25 Kg
- Cooling type: Air Cooling
- Refrigerant: R134a
- Water Supply: Tap Water
- Power: 480 W
- Voltage: 220V/50Hz or 110V/60Hz
- Product Dimension (W×D×H): 400 × 510×825mm
- Packaging Dimension (W×D×H): 470 ×590 × 875mm
- Net Weight: 45Kg
- Gross Weight: 49 Kg

**Features :**

- > Compact design
- > Clear Flake ice production
- > Ice making capacity of 85Kg/24h and ice storage of 25 kg
- > High temperature and high-pressure protection
- > Designed with stainless steel 304 exterior
- > It has adjustable feet
- > Slide away access door
- > Condenser Type: Air cooled
- > Enhanced design for better reliability
- > Fully automatic controller
- > Renowned brand compressor
- > High temperature and high-pressure protection

**Applications :**

Flake Ice Maker is used to produce ice flakes for maintaining the conditions of proteins, enzymes, and other reagents during lab experiments, as well as for cooling and transporting various biomedical products, food, and so on across research labs and bio-medical, life sciences and healthcare, food processing, beverage industries, meat processing, commercial bakery, and so on.
