Fixed Displacement Piston Pump

Tesca's Fixed Displacement Piston Pumps are built to deliver a stable, continuous flow with superior reliability and high-pressure endurance. Designed for critical hydraulic systems where consistent performance is vital, these pumps ensure minimal maintenance and long operational life.

Key Features

- ✓ **Stable Output:** Designed for constant, uninterrupted flow
- ✓ **Axial & Radial Configurations:** Versatility for various mounting needs
- ✓ **High Pressure Ready:** Operates from 300 to 500 bar with ease
- ✓ **Built Tough:** Fabricated with high-grade carbide steel
- ✓ **Reliable for Continuous Duty:** Ideal for 24/7 industrial usage

Technical Specifications

Parameter	Specification
Pump Type	Fixed Displacement (Axial / Radial)
Flow Rate	10 to 300 L/min
Operating Pressure	300 to 500 bar
Material	Carbide Steel
Displacement Type	Fixed (constant delivery)
Temperature Range	-10°C to +120°C
Mounting	SAE Flange / Foot Mount (customizable)

Note: Specifications are subject to change.
