

**Specifications -**

- Blue VO!CE microphone technology* – Detachable pro-grade microphone filters tune your voice in real time to sound richer, cleaner and more professional. Reduces background noise and eliminates pops and hisses for clear, consistent, in-game comms and streaming. Requires included USB external sound card, Windows PC, and Logitech G HUB software.
- DTS Headphone:X 2.0 – Next-gen surround sound* provides greater positional and distance awareness, so you know exactly where your opponents are before they find you and experience greater immersion in all your games
- Comfortable memory foam padding – Soft memory foam earpads with your choice of premium passive noise-cancelling leatherette or soft, breathable velour for supreme comfort. Frequency response: 100 Hz-10 KHz
- Durable steel and aluminium construction – Aluminium and steel frame and construction is comfortable, durable and strong.
- PRO-G 50-mm drivers – Advanced drivers with unique hybrid mesh construction deliver clear and precise sound imaging and improved bass response. Hear footsteps and environmental cues with clarity to give you the competitive advantage in the game.
- Premium USB external sound card – Digital signal processing delivers clean, consistent game sound and voice. Get the same high-quality audio on tournament PCs that you practise with.
- Pro-tuned EQ profiles – Hear in-game audio cues the way your favourite esports pro does, or design your own EQ profiles.* Save your favourite EQ to the USB external sound card for software-free use on tournament systems. Requires PC running G HUB software.
