

Order Code : 20213525.3.12

Name : Automotive battery/ alternator voltage tester 12v

Features:

- 6 LED display indicates condition, for 12V 24V battery.
- Alternator state check, battery state check, check before charge and overload display.
- Alternator check : accelerate your engine to 2000 rpm when the green light is lit ,charging circuit is ok.
- Battery check: indicate the percentage charging in the battery .
- Charger check: when green light is lit, the battery could be charged.
- Small Size and light weight,easy to carry.
- Easy and safe to use, no sparking

Specification:

- Battery Tester
- voltage:12V/24V
- Measure voltage: 12/24V
- Lights color: red/yellow/green
- LED quantity: 6 (2 red, 3 green, 1 yellow)
- Material of wire: 0.06 square millimeter copper
- Max. voltage / current: 12V (24V)/ 15A
- Length of wire: 250mm
- DC24V three battery reading:FULL(25.6V) MID(24.8V) LOW(24V)
- DC12V three battery reading:FULL(12.8V) MID(12.4V) LOW(12V).

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
