

The fault simulators consist of a rack on which **12 industrial installation modules** can be assembled to create control circuits for an industrial motor.

More than **20 failures** can be simulated.

The rear of all rack modules is hidden by a **cover which is lockable** with a key available to the trainer.

**The set contains the following modules:**

- 4 Contactors
- 1 Push buttons
- 1 Limit switch
- 2 Indicator lamps
- 2 Timers
- 2 Magnetothermal circuit breakers
- 1 Panel support
