

(Photos are indicative only)

Features

- Electrical insulation materials designed to **safely cover, protect, and reinforce electrical connections** during electronics, electrical engineering, and STEM educational projects
- Suitable for classroom laboratories, workshops, and repeated instructional use

Technical Specifications

Parameter	Offered Specification
Intended Use	Electrical insulation and protection in electronics and STEM projects
Set Type	Basic set
Heat-Shrink Tube Material	Polyolefin or equivalent heat-resistant material
Tube Diameters	Approx. 1 mm to 10 mm (multiple sizes included)
Shrinkage Ratio	Approx. 2:1 or higher when heated
Insulating Tape Material	PVC or similar dielectric material
Insulating Tape Width	Approx. 10 mm
Tape Properties	High resistance to abrasion and electrical breakdown
Packaging	Supplied as a convenient, organised set suitable for storage and educational use

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
