

Technical Data

Electrical Specifications

- **Contact Load:** max. 10 A
- **Contact Resistance:** < 0.03 Ω

Description

The **universal mounting plate** (532 mm wide version) is used in conjunction with **pluggable components** for the **solderless construction of experimental circuits** in all areas of **electrical engineering and electronics**.

In addition to setting up **demonstration stations**, where the universal mounting plate is mounted on racks, it is particularly suitable for **equipping student practice and training areas**.

Key Features

- Suitable for use with **4 mm safety cables**
- Ideal for **basic and complex experiments** in electrical engineering and electronics
- Equipped with **4 mm and 2 mm sockets**, high contact load capacity
- **Robust mechanical design**
- Perfect for **student training** and **demonstration environments**

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
