

Product Overview:

The Sherrington Starling Kymograph is a versatile and robust recording instrument designed for physiological experiments and laboratory use. It facilitates precise measurement and recording of biological responses using either electrical or manual drive options.

Features:

- **Dual Drive Mechanism:** Supports both **electrical** and **manual (9E driven)** operation for flexible usage.
- **Variable Speed Control:** Allows precise adjustment of drum rotation for accurate time-based recordings.
- **Durable Construction:** Made from high-quality **metal with corrosion-resistant** properties to ensure longevity.
- **Essential Accessories Included:** Supplied with **recording drum, stylus,** and an **adjustable time scale** for immediate use.

Technical Specifications:

Specification	Details
Drive Mechanism	Electrical or manual (9E driven)
Speed Control	Variable speed control
Construction Material	Durable metal with corrosion resistance
Accessories Supplied	Drum, recording stylus, adjustable time scale

Note: Specifications are subject to change, Photos shown above are Indicative, Actual Product can Vary.
