

**Overview:**

The 50 kg Scale with Attached Chain is a robust and multifunctional weighing system designed for standard industrial and laboratory applications. The unit features a column-mounted bench scale with a durable weighing platform and an integrated indicator for accurate measurement. Its sturdy construction, moisture-sealed load cell, and removable stainless-steel platform ensure reliable performance in demanding environments.

**Features:**

- Multifunctional scale suitable for various industrial weighing applications
- Column-mounted bench scale design for convenient operation
- Stainless steel removable weighing platform for durability and easy cleaning
- Moisture-protected aluminum load cell sealed with silicon for improved reliability
- Powder-coated steel base and column for enhanced strength and corrosion resistance
- High-visibility stainless steel indicator for precise measurement readings

**Technical Specifications:**

- **Maximum Capacity:** 100 lb (50 kg)
- **Readability:** 0.005 lb (2 g)
- **Platform Size (L x W):** 18 in x 24 in (457 mm x 610 mm)
- **Indicator:** TD52XW Stainless Steel Indicator
- **Platform Construction:** Stainless steel removable weighing platform with ABS plastic components
- **Base Construction:** Powder-coated steel base
- **Load Cell:** Aluminum load cell, silicon sealed against moisture
- **Column Height:** 26.8 in (680 mm), powder-coated steel
