

52352 Cut section model of pneumatic components consists of cut section of the pneumatic components which gives idea regarding the internal constructional features of the pneumatic components.

Features

1. All items are mounted on MS powder coated frame.
2. Compact system.
3. Modern industrial components.
4. Comprehensive training manual supplied.

Technical Specifications

1. Study of Pneumatic control valve.
2. Study of Pneumatic actuators.
3. Study of AFR

Components:-

1. Single Acting Cylinder
2. Air Filter Regulator
3. Shuttle valve
4. Flow control valve
5. 3/2 Direction Controlled Hand Lever Operated Valve

Note:

All descriptive matter and illustrations are intended to give only a general idea of the equipment Detailed specifications may be altered at the company's discretion without any notice.

Note: Specifications are subject to change.
